# HAIRSTYLING

Canned Ego is best known for haircuts that work. This highly trained team endeavor to create unique, versatile looks that can be styled to suit all aspects of your lifestyle: professional for the boardroom, stunning for a gala function or simply casual for an enjoyable weekend in the country. Whatever the event, your hair will always look good.

If you are looking for the classic look, something a little different or totally creative we at Canned Ego are versatile in creating your desired look.

Expert colouring will enhance your presence with dramatic or subtle changes that transform your look in just one session. These range from partial translucence to complete coverage. High or low lights can enhance or totally change your natural colour depending on the look you want. You can have half a head, three quarter or a full head of foils depending on what you decide. A colour consultation with one of our Aloxxi trained colour technicians is the best way to help you decide what to go for.

Semi, demi and permanent full head colours are also available, giving you full control on the affect and length of time the colour lasts.

Before applying any colour to the hair we shampoo, cleanse with a deep clarifying solution which prepares the hair perfectly for colour. This is a unique pre colour treatment which removes any build up from products or the environment
